

## APC Safety Protocols

Given the COVID trends and situation, at the current time APC will be “mask optional” - we are no longer asking all people, ages 2 and up, regardless of vaccination status, to wear a mask indoors. This applies to all ministries and all locations (adult, youth, children, nursery, etc at APC or away from APC)\*. Individuals and families should make their risk decisions and decide what to do and what they are comfortable attending knowing mask wear is optional. As we strive to continue to love our neighbors well, we ask for you to pray with us for unity, love, respect, and understanding of and for one another.

We will continue to offer a dedicated “Social Distancing with Masks” section for those that prefer to be seated with others that are all wearing masks. This section will be expanded and moved to the back right of the Sanctuary.

\* For a nursery option for those that may desire a room “with masks” for all adult volunteers and all children, ages 2 and up, please ask the Director of Children’s Ministries or the Sunday Nursery Supervisor.
